Hi Peter,

I have been a fan of yours for over 25 years.
As a Canadian I attended and heard you speak numerous times at mining forums.

Also subscribed to your newsletter for years. Currently I own 500,000 (half a million) shares of Vanstar mining.

Thank you for efforts and God Bless.

Hello M. Grandich,

My son just informed me for your request concerning VSR. I have 390ks shares of VSR and I am totally with you. But I want you to know that I am the brother of one of a directors on the board. But I assure you, I acquire all my shares without knowing my family was at play. The tips had been from a friend.

Furthermore, I have read your Book, I am so proud of your success.

Hello Peter,

I am a decades long follower of yours and a natural goldbug (geologist). Thanks for all your sincere input over this time!

I am sure the goldprice will go up in this perfect constellation. For Nelligan hopefully the gold content will go up too. Nobody knows. I have no geological experience in such Archean sediments like the Abitibi greenstone belt, but the resource of gold, especially in this less thick sediments in this geol.environment should be huge! They are the ideal "gold fluid catchers." But as we geologist say: I was not in place at that time :-). All the best to you and stay strong

Peter,

I first heard you talking about financial and other matters on Relevant Radio in 2018 I believe. Never took your gold advice in August 2018 but I knew the general equity markets were getting overvalued, the accumulative Federal Reserve policies, all the government, corporate, and personal debt, etc. was going to catch up probably sooner than later. And, then the pandemic or "plandemic." Too many issues that any person with an intact functioning brain cannot just dismiss as mere coincidences. Without a doubt, there are evil forces out there like the World Economic Forum and their Global Reset agenda. When I looked up "what is the global reset" it did not make me feel all warm and fuzzy. I would bet dollars to donuts that you would concur with me. I digress. My total Vanstar holdings are 249,164 shares. For my portfolio this is a little larger of a holding than I probably should have for my own personal risk tolerance level, however, I have put forth my own due diligence beyond average for the most part. Not a professional by any means like yourself but I do realize the asset Vanstar has and the continued upside for gold in these turbulent and uncertain times we are living in. Lastly, I especially thank you for your sharing of Catholic commentary from people like Father Altman and Father Altier who are both very straight forward with their congregations. As a devout Catholic I also wish more priest were like those two. Prayer is powerful so we must pray diligently for more priests to become emboldened toward speaking to their flocks in such a manner!

Blessings of health, guidance, and inner peace to you, your family, and all those associated with the Allaire Farm. "Let your hope keep you joyful, be patient in your troubles, and pray at all times." - Romans 12:12

In Jesus Christ our Lord & Savior,

Mike

The tools he has introduced to me over the past 9 months have made me feel like I am building a solid financial foundation for my family. I thank God for letting me hear you speak on Relevant Radio and for providing his Holy Spirit to urge me to contact you. I also enjoy following you on Twitter and have built a small portfolio based on some of the industries and companies that you share about. Thank you for your willingness to share your experience and knowledge with so many. Be well and God Bless you.

Warm regards,
Joe

Hi Peter... when I first got in, I wasn't aware that you invested into Vanstar. I kind of made a mistake thinking Vanstar owned 100% of the Nelligan project. Anyway, I have heard of you from years before, although was never involved or associated with your past investments. I bought more went all in with Vanstar; thanks to your comments and opinions. In Canada, we have an RSP account (a Pension account), a Tax Free Savings Account, and a non-registered investment account. Between all 3 accounts, i have 119k Vanstar shares... thanks for your investment opinions... thanks again, Ben... God bless you and your entire family...

Good morning Peter,

I just got a chance to watch your last 2 videos and I wanted to let you know that I'm grateful for the information that you share with us! You asked us to send you the amount of shares we own and I currently own 30,000 shares of VMNGF.

I'll keep your wife in my prayers (that she can recover to get back to the farm :->).

Peace! I have been following your advice for over 20 years (Grandich Letter). You have a gift for understanding the markets – a gift which is rare and you choose to share with others. Many people will be jealous and as a result, they will try to tear you down – that's life, and for some that is their nature.

I have never known you to be wrong on a market or stock call – even when you said in 2009 the bottom is in and the market will go up. I doubted your call; but you were correct. I remember when everyone was in despair over Continental Resources, you said to hang in there and it will pay off – it did! (I recall you posted that a man, who was extremely distraught, came to your door – remember that one!)

When I was a young business man, I knew a much older (successful) man who had many detractors, so I asked him how he responds to the criticism, he simply said that “anyone who achieves in life will always have critics”. The moral of this email is to provide you something – Perhaps it is you who should turn off the message boards; and forget about the critics. You know who you are and what you have achieved – you owe your critics nothing; not even a mention that they exist.

Best to you – I will vote my shares in accordance with you instruction. (150,000)

Hi Pete, You can add my mere 20,000 shares of VSR. I purchased these shares on your recommendation several months ago and I intend to hold them until this company is taken out. I am also one of those long term followers you tweeted about, Having enjoyed your work back during the Grandich letter, your time with Agoracom and of course my favorite on BNN with Jim. Thank you for all that you do Peter, take care.

Regards,
Cliff
